## Clayton DHP1

We have continued to work on the Clayton Project.

We will be offering the running prototype salmon and cream livery. We will also be offering the never used BR Green late crest and the BR Blue Liveries.

All the CAD's are completed and we can go right into tooling, all we need is a few more interested customers to be able to open the order book.

The expression of interest is now open at [Clayton DHP1](#)

### Model Specification

- 21-pin DCC socket with easy access
- Directional LED Lighting
- Heavy die-cast metal chassis with central motor and flywheels giving powerful performance
- Separately fitted wire handrails and sandpipes
- Etched grilles
- Sprung buffers
- Flush glazing
- Available in OO Gauge.
- DCC Ready (£165.00), and DCC Sound TBC.

---

## SR The leader

The first look at the CAD's are now here. We just have to do a few minor tweaks and we'll go right into tooling.

With the response that we have received so far with our initial announcement that we are making the Leader, it has been overwhelming. The Leader will be offered in OO gauge only, but we will have an expression of interest link open for the N gauge version. We can reveal that we will be offering it in both the prototype grey and BR Black early crest liveries. It will be available in DCC ready, DCC Fitted and DCC Sound.

We are now able to update you with the plan going forward. The order book is now open. There will be 3 versions available, DCC Ready £185.00, DCC Fitted £215, and DCC Sound £285.00. Available in prototype grey, early crest grey, and BR Black Early crest.

---

## Consett Iron Ore Wagon

As you can see the decorated samples have arrived for the Consett ore wagon. There are just a few very minor fixes to change and then we go right into production. The load tooling should be complete soon, and we can show those off as soon as we have them. Sales have been very strong and the order book will close on **May 30th**. If you haven't placed your order then don't delay.

Delivery is expected to be Autumn of this year.

**Last few remaining.**  
**The 9 car Rake are almost sold out.**  
**Order NOW to avoid disappointment.**

# English Electric - GT3

All deliveries have now been dispatched for the 1st run of the GT3. We will be replacing the front bogie truck and front buffer beam.

The order book will be closing soon for the 2nd run as sales have been very strong and demand has been high.

Production has started and delivery is expected in the Autumn.

### [YouTube GT3 Test running with sound](#)

We are now taking orders for the 2nd production run.  
The link for new customers is below.

### [GT3 2nd Production Order Link](#)

Following customers requests, we have launched the GT3 in  
BR Blue.

The order book for this model is also open, please use the link  
below to pre-order this model.

THE FELL

The decorated sample will arrive in May so we will do some more track testing and examine the model to see if everything is correct before we go to production. Sales have been very strong and the order book is still open for all those who still want one. Please remember we only make enough to cover orders. The instalment plan will be closing very soon, June, because otherwise there will be payments outstanding after we deliver.

Once it's gone, it's gone.

**Shop now for The Fell - OO gauge**

# 2021 Announcements

We have announced 3 possible new products that we have launched for 2021.

We have answered the call from small industrial modellers by offering the Hunslet BO-BO and the Torpedo wagon set.

These wagons can be found in the Scunthorpe Steelworks today. They run in pairs so it makes sense to package them in pairs.

The CAD work is complete so if you are interested then please sign up for the Expression of interest.

## Keep those suggestions coming.

If you have any suggestions for models or your own personal wish list of models you want to see, please email [michael@krmodels.co.uk](mailto:michael@krmodels.co.uk) and we will take it into consideration. We do take every suggestion seriously, so please don't be shy.

We have just completed 3 days getting plans and drawings on a variety of potential new models so we will be able to bring you some on a lot of customers wish lists.
